INTERNATIONAL CHINA EMBARGO LIST

CHINA COMMITTEE

1. Attached hereto is the "China Special List," revised as at 30th November, 1953. This supersedes Doc. CH/170. It includes all items agreed by the Committee, as at the date above, for embargo to China and North Korea, in addition to the items on International Lists I, II, and III.

2. The "Source" column in the List shows, for each item, the Documents recording agreement on the definition as listed. Where the source is a China Committee Document, the symbol "CH/-" is used; where the source is a COCOM Document, the symbol "Doc -" is used. In addition, for items originating from the proposals in COCOM Document 509 (and Addendum), the numbers subsequently assigned to them by COCOM Document 782 (Annex) are shown in parentheses.

3. All definitions in the attached List (whether or not marked "*n.e.s.*") should be construed as exclusive of all types and varieties covered by the International Lists.

<i>Item No.</i>	<i>Description</i>	<i>Authority</i>
-----------------	--------------------	------------------

METAL-WORKING MACHINERY

(001-099 Series)

C001	Machine tools and accessories (<i>except</i> those designed specially for the production of civilian hardware, such as—but not limited to—needle, pin, button and nail-making machinery), as follows:—	CH/108 CH/207
	(a) Metal-working machine tools, <i>n.e.s.</i> ; and accessories therefor;	(20)
	(b) Engineers' cutting and forming tools, <i>n.e.s.</i>	(33)

CHEMICAL AND PETROLEUM EQUIPMENT

(101-199 Series)

C150	Containers of the "jerry can" or similar type, <i>n.e.s.—i.e.</i> , containers of 4 U.S. gallon (15 litre) capacity or more, equipped with handles and water-tight lids, and suitable for use in storing or transporting petroleum.	(3) CH/33
C151	Petroleum refinery equipment, <i>n.e.s.</i>	(2) Doc. 1051

ELECTRICAL AND POWER GENERATING EQUIPMENT

(201-299 Series)

A.—Electrical Equipment

(201-249 Sub-Series)

C210	Welding machines and equipment, <i>n.e.s.</i> ; and parts therefor (<i>including</i> electrodes—rod and wire— <i>n.e.s.</i>).	(24) CH/120
------	---	----------------

B.—Power-Generating Equipment

(250-299 Sub-Series)

C260	Electric motors, <i>n.e.s.</i>	(18) CH/108
C265	Internal combustion engines, <i>n.e.s.</i>	(4) CH/108

<i>Item No.</i>	<i>Description</i>	<i>Authority</i>
Electrical and Power Generating Equipment—continued		
C266	Power equipment, as follows:—	(19) CH/135 CH/207
	(a) Equipment, <i>n.e.s.</i> , for electric generating, transforming, rectifying and converting, transmission, and power distribution; control gear and accessories, <i>n.e.s.</i> ; sub-station equipment, <i>n.e.s.</i> ; and parts, <i>n.e.s.</i> for the foregoing;	
	(b) Plant for the production of fuel gas;	
	(c) Boiler-house plant for use with sub-items (a) and (b) above.	
 GENERAL INDUSTRIAL EQUIPMENT (301–399 Series)		
<i>Metallurgical, Mill and Foundry Equipment</i>		
C301	Foundry Plant, <i>n.e.s.</i>	(32) CH/26
C302	Furnaces and ovens as follows:— Resistor-type heat-treating and annealing, <i>n.e.s.</i> ; and electrical component parts thereof, <i>n.e.s.</i>	CH/94
C315	Hard-chrome plating plants (<i>except</i> small barrel-type electro-plating plants for decorative purposes).	CH/104 CH/217
C316	Metal-spraying equipment.	CH/50
 <i>Construction and Conveying Machinery</i>		
C321	Road-rollers, self-propelled, tandem and three-wheel steel-tyred types, 8-ton unballasted weight or over.	CH/138
C325	Excavators (<i>including</i> power shovels), <i>n.e.s.</i>	(9) CH/26
C326	Bulldozers; angle-dozers; trail-builders.	(10) CH/26
C327	Spray-guns, air-operated types capable of placing 13½ cubic feet (0.38 cubic metres) or more of wet mixture of cement and sand per hour; <i>and</i> accessories therefor.	CH/77 CH/207

5

<i>Item No.</i>	<i>Description</i>	<i>Authority</i>
-----------------	--------------------	------------------

General Industrial Equipment—continued*Equipment for other Specific Industries*

C351	Mining machinery, <i>n.e.s.</i>	(25) CH/87
------	---------------------------------	---------------

Other General Industrial Equipment

C370	Portable hand-held power tools (pneumatic, electric and petrol operated) designed for the following uses:— <div style="margin-left: 20px;"> (a) Metal working; (b) Mining and quarrying; (c) Transportation and transportation-servicing (railroads, locomotives and rolling-stock, ships, planes and motor transport). </div>	(23) CH/166 CH/199
------	---	--------------------------

C374	Jacks, 10-ton capacity and over.	CH/120
------	----------------------------------	--------

C375	Materials-handling equipment, as follows:— <div style="margin-left: 20px;"> (a) Fork-lift trucks; (b) Platform trucks; (c) Other industrial-type trucks, trailers, and stackers. </div> (NOTE.—The above sub-paragraph (c) covers only equipment specially designed for materials handling, such as those equipped with crane booms and winches.)	CH/114 CH/207
------	--	----------------------

TRANSPORTATION EQUIPMENT

(401-499 Series)

Vessels

C401	Watercraft, <i>n.e.s.</i> ; and important components, <i>n.e.s.</i>	(7) CH/21
------	---	--------------

Automotive Equipment (except Tyres)

C450	Motor vehicles and equipment, as follows:— <div style="margin-left: 20px;"> (a) Motor vehicles (<i>including</i> tractors, trailers and motor-cycles), <i>n.e.s.</i>, <i>except</i> the following: scooters; tricycles under half-ton loading capacity; and private touring (passenger) cars designed or constructed to carry not more </div>	(5) CH/77
------	--	--------------

Transportation Equipment—continued

than 6 persons. (NOTE.—The foregoing exclusion does not apply to the following, even if apparently designed or constructed to carry not more than 6 persons: crew cars (personnel carriers); station wagons; utilities; pick-ups; buses; kit cars);

- (b) Chassis, components, and spares, *n.e.s.*, for the above vehicles;
- (c) Servicing equipment and materials, *n.e.s.*, for the above vehicles.

Railway Equipment

C471	Railway rolling-stock, <i>n.e.s.</i> ; and parts therefor.	(6) Doc. 1051
------	--	------------------

ELECTRONICS AND PRECISION INSTRUMENTS
(501–599 Series)

Radio, Radar and other Telecommunications Apparatus

C501	Telecommunications equipment, as follows:—	(17) CH/120
	<ul style="list-style-type: none"> (a) Telecommunications cable, <i>n.e.s.</i>; (b) Telegraphic instruments, <i>n.e.s.</i>; (c) Telephone switchboards and other telephone instruments, <i>n.e.s.</i> (<i>except</i> domestic telephone instruments); (d) *Radio transmitting apparatus, <i>n.e.s.</i>, and non-specialised components therefor; (e) *Radio communication receivers, <i>n.e.s.</i> and non-specialised components therefor (<i>except</i> domestic radio receivers and components suitable only for domestic radio receivers). 	<div style="display: flex; align-items: center;"> <div style="font-size: 3em; margin-right: 10px;">}</div> <div>CH/203 CH/228</div> </div>

NOTE.—Non-specialised components include all types of electronic valves (tubes), capacitors, resistors, coils, antennae and power supplies.

* (Re-definition pending.)

C502	Detection apparatus, as follows:—	CH/77
	<ul style="list-style-type: none"> (a) Ultrasonic detectors, <i>n.e.s.</i>; (b) Electrocardiographs (<i>except</i> those being exported in small quantities, where the exporting authorities have made sure that the equipment is intended for medical purposes and report the exports in accordance with the “exceptions” procedure in paragraph 3 of Document 782).

Electronics and Precision Instruments—continued*Other Electronics and Precision Instruments*

C561	Telescopes and binoculars (except opera glasses having no prisms and magnification less than X3 $\frac{1}{2}$).	(16) CH/33
C562	Cartographic instruments, as follows:— <div style="margin-left: 20px;"> <p>(a) Map-making instruments for use with ground or air photographs;</p> <p>(b) Instruments for studying and interpreting air photographs.</p> </div>	(29) CH/26 CH/207
C563	Measuring and testing instruments for use in engineering workshops, <i>n.e.s.</i>	(22) CH/77
C570	Surveying instruments, as follows:— <div style="margin-left: 20px;"> <p>(a) Base line equipment;</p> <p>(b) Geodetic theodolites (first order instruments);</p> <p>(c) Precise theodolites having an accuracy better than 4 sexagesimal seconds by direct reading;</p> <p>(d) Theodolites, tacheometers and transits with a telescope magnification of X15 or higher and reading direct to 1 sexagesimal minute or better;</p> <p>(e) Precise levels for first-order work;</p> <p>(f) Surveyors' and engineers' telescopic levels having telescope magnification of X15 or higher and an object glass aperture 1.2 inches (30 mm.) or larger.</p> </div>	(28) CH/77
C571	Precision, scientific, and optical instruments, <i>n.e.s.</i> , capable of being used in the development, production and testing of military equipment.	(21) CH/127 CH/207
C572	Electronic heating instruments used in the metallurgical industry, <i>n.e.s.</i>	(27) CH/26

<i>Item No.</i>	<i>Description</i>	<i>Authority</i>
METALS, MINERALS AND THEIR MANUFACTURES (601-699 Series)		
<i>Metal and Mineral Manufactures</i>		
C610	Flexible metal tubing, <i>n.e.s.</i>	(26) CH/26
C616	Barbed wire.	(12) Doc. 1051

<i>Basic Metals and Mill Products</i>		
C635	Iron and steel products, the following:—	(11) CH/167 CH/207
	(a) Pig-iron and ingot steel;	
	(b) Semi-finished and finished iron and steel, including alloy steel (for example ingots, castings, billets, pipes, tubes, plates, angles and girders).	
C650	Single or multicore electric power cables insulated with paper and metal sheathed, with or without armour and/or serving, <i>n.e.s.</i>	CH/155

<i>Minerals</i>		
C680	Raw and manufactured asbestos, <i>n.e.s.</i> (except the following:—	(14) CH/67 CH/207
	Asbestos cement products; filter asbestos; asbestos jointing and packing).	

CHEMICALS AND PETROLEUM PRODUCTS
(701-799 Series)

A.—Chemicals
(701-769 Sub-Series)

C750	Cresylic acid including para-, meta- and ortho-cresol and xlenol.	(34) CH/65
------	---	---------------

B.—Petroleum Products
(770-799 Sub-Series)

C790	Paraffin wax; petroleum jelly.	(1) Doc. 1051
